

3.5" Template

Print area: Keep all text and important information in this area

Safe area: DO NOT put any important informaton in this area, in case of borderless printing only background color/artwork may extend here.

Bleed area: for bordreless printing extend your background to this area if to avoid white edges in finished product.

Note: if you keep the entire print in the "Print Area" with white border around it, you can leave the "Safe area" and "Bleed Area" Blank.
